and Resource Guide

2015

Annual Report

AND RESOURCE GUIDE

July 1, 2014, through June 30, 2015

Lottery sales for fiscal year 2015 reached \$159.9 million, and transfers to the beneficiary funds were \$37.1 million. These are figures to be proud of, and speak to the appeal of the products, the loyalty of players, and the efficiency of our organization.

Some factors that had a significant positive impact during the fiscal year included a record \$564.1 million Powerball jackpot; increased jackpot awareness activities; and continued innovation in Scratch products. Additional details on these items can be found in this report.

Finally, we continued a long-standing relationship with retailers, who received \$10.2 million in commissions during the fiscal year.

Other highlights for the fiscal year include:

- Collected \$561,045 in state income taxes from prize winnings;
- Collected \$19,456 in unpaid taxes; and
- Collected \$31,496 in unpaid child support.

We look forward to continuing to serve the citizens of our state by providing them with quality entertainment, and by supporting good causes with Lottery proceeds. Together, we are Helping to Build a Better Nebraska®.

Len Sloup, Acting Tax Commissioner

General Information

The Nebraska Lottery sells \$1, \$2, \$3, \$5, \$10, \$15, and \$20 Scratch tickets, with prizes ranging from a free \$1 ticket up to \$200,000 cash. A variety of Scratch games were developed and offered during the course of the year.

The Nebraska Lottery sells Lotto (online) games such as Powerball®, Mega Millions®, 2by2®, MyDaY®, Nebraska Pick 3®, and Nebraska Pick 5®. MyDaY, Nebraska Pick 5, and Nebraska Pick 3 are offered exclusively in Nebraska. Powerball and 2by2 are operated on behalf of member lotteries by the Multi-State Lottery Association; and Mega Millions is operated by the member lotteries. Drawings for Nebraska-exclusive Lotto games are held six nights per week. Powerball and Mega Millions drawings are held twice per week. Drawings for 2by2 are held every night. The price for a single play of most games is \$1, except for Powerball, which is \$2 per play. Lotto prizes range from a free ticket up to a multi-million-dollar jackpot.

Nebraska Lottery Scratch and Lotto game products, equipment, and services are provided by International Game Technology (IGT)*, which employs 38 people across Nebraska. Tickets and equipment are distributed from the IGT warehouse in Lincoln. The Nebraska Lottery contracts with SKAR Advertising of Omaha for advertising development and marketing-related services. Security and audit services are provided under contract with other Nebraska firms.

There are 23 Nebraska Lottery state employees providing accounting, marketing, communication, information technology, security, and general administrative services.

* The Lottery's system vendor, GTECH Corporation, acquired International Game Technology (IGT) in April 2015. The combined company was rebranded as IGT.

Operations

Advertising Request for Proposal

On December 8, 2014, the Nebraska Lottery issued a Request for Proposal (RFP) for Advertising and Marketing Services. The Lottery sought competitive proposals for a full-service advertising agency to work collaboratively as a partner in producing successful advertising and marketing services for all aspects of the Nebraska Lottery.

Several Nebraska agencies submitted proposals for consideration during the extensive RFP process. On July 1, 2015, SKAR Advertising of Omaha was announced as the agency of record for the Lottery, a title SKAR has held since 2009. The agency of record represents the Lottery in the production and placement of print and broadcast advertising, relationship marketing, certain sponsorships, and promotions. The four-year contract commenced on July 1, 2015, and can be extended by as many as three one-year renewal periods.

SKAR Advertising President Joleen David said, “We are proud of the work the Nebraska Lottery/SKAR team has done since 2009, and the results we have achieved for our state. We look forward with great enthusiasm to continuing our successful partnership.”

SKAR Advertising is a full-service brand communications agency, headquartered in Omaha since 1962.

Lotto (Online) Developments

During the fiscal year, the Nebraska Lottery developed a comprehensive effort to promote awareness of Lotto jackpot games with a series of retailer events across Nebraska.

With the largest Powerball jackpot in a year, the Lottery hit the road on February 11, 2015, to generate excitement for the record \$564.1 million drawing. Three “blitz” events were set up at retailers in Grand Island, Lincoln, and Omaha with free Powerball tickets handed out to the first 500 people in line at each location. In addition, Lottery Sales Representatives handed out coupons for free Powerball plays during their regular retailer visits across the state. All three events were well attended by players and the media, and photos from the Lincoln event were distributed by the Associated Press and featured in news stories across the country.

In late May and early June, Lottery teams visited retailers in Columbus and Scottsbluff for coupon blitzes during high Mega Millions and Powerball jackpots. Eight Lottery retailers were visited in Columbus on May 29, 2015, and 250 coupons for free Mega Millions plays were handed out to players, with an additional 400 coupons provided to radio stations for their own promotions. In Scottsbluff on June 3, 2015, an additional eight retailers were visited, with more than 200 Powerball coupons passed out and 400 coupons given to local radio stations.

The jackpot blitzes were a success based on the number of retailers, players, and potential players who were reached. The concept requires minimal effort and expense, can be implemented on short notice, and is suitable for a range of jackpot levels.

Campaign

High jackpots are a key feature of the Powerball game, but every jackpot run starts at the same amount: \$40 million dollars. The goal of the Why Wait to Win branding campaign was to show players that every Powerball jackpot is a big jackpot. So why wait to win?

A comprehensive marketing campaign using television, radio, digital, and social media was developed and launched in November 2014. Two television ads showed \$40 million winners spending their prize money while still having a significant amount of money remaining. A social media contest encouraged players to share how they'd spend their winnings using the hashtag **#spend40mil** on Facebook, Twitter, and Instagram for a chance to win Powerball tickets for a year. A total of 1,736 posts using the hashtag were created by users in November and December 2014.

Scratch Developments

Loteria Scratch Game

In August 2014, the Nebraska Lottery launched a new \$3 Scratch game, Loteria. Based on the Mexican game of chance, the Loteria Scratch game featured the iconic Loteria cards known to players across the world, and offered three top prizes of \$35,000.

Because Loteria is well-known to Spanish-speaking players, efforts were made to promote the Loteria Scratch game to these players in their native language. Game launch events were hosted in Scottsbluff, Grand Island, and Omaha in partnership with Spanish-language radio stations, and Spanish commercials and point of sale pieces were created and distributed.

The Loteria Scratch game was a very successful game at the \$3 price point. The game closed after 25 weeks on sale and, based on the response from players, a second edition of the game was printed and released in June 2015.

Sizzling Summer 7s Scratch Games and the Summer 7s Giveaway

For a third year in a row, the Nebraska Lottery has utilized a proven combination of Scratch games and a statewide second-chance contest to counteract decreasing summer ticket sales.

A family of three Scratch games using the Sizzling Summer 7s moniker was launched in May 2015:

- \$1 Sizzling Summer 7s Scorching Sapphires;
- \$2 Sizzling Summer 7s Red Hot Rubies; and
- \$5 Sizzling Summer 7s Fiery Diamonds.

Non-winning tickets from each game could be entered in the Summer 7s Giveaway between May and August 2015. Entrants who submitted their tickets during the first five weeks of the promotion were eligible to win cash prizes of \$177, \$277, or \$577 in the weekly Early Bird drawings. All entrants were eligible to be selected as one of the seven finalists who competed in the Grand Prize event on August 30, 2015, at the Nebraska State Fair. The finalists split a total of \$100,000 in cash prizes, with John Kaup of Dodge taking home the top prize of \$50,000. A video of the Grand Prize event is available on the Nebraska Lottery's YouTube channel at <https://youtu.be/4UPkYrwEX5w>.

The Sizzling Summer 7s Scratch games and the Summer 7s Giveaway continued the Lottery's ongoing efforts to minimize sales decreases over the summer months. A total of 73,860 entries were received in the Summer 7s Giveaway, and 19% of entrants joined the MVP Club at nelottery.com specifically to enter the contest.

Retailers

The Nebraska Lottery sells Scratch and Lotto tickets through a retailer network of approximately 1,200 locations statewide. Nebraska Lottery retailers range from convenience stores to supermarkets and cafés. Nebraska Lottery tickets may not be sold in establishments licensed for the consumption of alcohol.* Players must be at least 19 years old to purchase and redeem Nebraska Lottery tickets.

Previous research among retailers found that carrying Lottery tickets is viewed as a customer service by 62% of retailers responding. Another 36% of retailers said they believe Lottery tickets are both a customer service and a profit center for their stores.

The statewide sales leaders for the fiscal year are listed here.

* [Neb. Rev. Stat. § 9-823\(7\)](#) states that: "... no ticket may be sold at a retail liquor establishment holding a license for the sale of alcoholic liquor at retail for consumption on the licensed premises unless the establishment holds a Class C liquor license with a sampling designation as provided in subsection (6) of section 53-124."

Beneficiary Support

Proceeds from the Nebraska Lottery benefit the environment, education, the Nebraska State Fair, and compulsive gamblers assistance. The Nebraska Lottery transferred \$37,106,983 to its beneficiaries during the fiscal year, bringing the overall total to \$564,607,092 since operations began on September 11, 1993.

Amendment 4, passed by Nebraska voters in November 2004, established the following distribution formula:

- Education (44.5%), as directed by the Legislature, is divided between the
 - Education Innovation Fund and
 - Nebraska Opportunity Grant Fund;
- Nebraska Environmental Trust Fund (44.5%);
- Nebraska State Fair (10%); and
- Compulsive Gamblers Assistance Fund (1%), plus the first \$500,000 in fund proceeds each fiscal year.

The total transfers to the funds between September 11, 1993, and June 30, 2015, were:

Education Innovation Fund	\$165,871,966
Nebraska Opportunity Grant Fund*	\$90,464,452
Nebraska Environmental Trust Fund	\$237,875,421
Nebraska State Fair Support and Improvement Fund	\$33,913,186
Compulsive Gamblers Assistance Fund	\$13,021,071
Solid Waste Landfill Closure Assistance Fund (1993–1997)	\$18,460,996
General Fund Transfer (2004)	\$5,000,000
TOTAL	\$564,607,092

* LB 956, passed by the Nebraska Legislature, renamed the Nebraska Scholarship Fund to the Nebraska Opportunity Grant Fund effective July 1, 2010.

NEBRASKA LOTTERY

INDEPENDENT AUDITOR'S REPORT

State Tax Commissioner
Nebraska Department of Revenue, Lottery Division

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Nebraska Lottery (Lottery), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Lottery's basic financial statements, as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Lottery's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the business-type activities of the Lottery, as of June 30, 2015, and the respective changes in financial position, and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Lottery are intended to present the financial position and the changes in financial position of only that portion of the business-type activities of the State that is attributable to the transactions of the Lottery. They do not purport to, and do not, present fairly the financial position of the State of Nebraska as of June 30, 2015, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 8-11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 21, 2015, on our consideration of the Lottery's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lottery's internal control over financial reporting and compliance.

SIGNED ORIGINAL ON FILE

October 21, 2015

Zachary Wells, CPA, CISA
Audit Manager

(The Nebraska Lottery has not included the Management's Discussion and Analysis (MD&A), the statistical information, and the Report on Internal Control over Financial Reporting and on Compliance and Other Matters, as noted above, in this annual report. The MD&A is required supplementary information that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements. The Report on Internal Control over Financial Reporting and Other Matters is required by Government Auditing Standards. The MD&A, the Report on Internal Control over Financial Reporting and on Compliance and Other Matters, and statistical information can be obtained from the Nebraska Lottery or from the Auditor of Public Accounts (APA) audit report of the Nebraska Lottery found on the APA's website.)

The accompanying Notes to the Financial Statements are an integral part of this statement.

Notes to the Financial Statements

For The Fiscal Year Ended June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying basic financial statements of the Nebraska Lottery (Lottery) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. As the Lottery is a business-type activity, the financial statements presented are the financial statements required by Governmental Accounting Standards Board (GASB) Statement Number 34 for an enterprise fund. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The financial statements have been prepared primarily from data maintained by the Lottery on computer systems provided by the lottery-services vendor and from accounts maintained by the State Accounting Administrator of the Department of Administrative Services (DAS).

B. Reporting Entity

The Lottery was created on February 24, 1993, by the Nebraska Legislature as a division of the Nebraska Department of Revenue, established under and governed by the laws of the State of Nebraska. As such, the Lottery is exempt from State and Federal income taxes. The financial statements include all funds of the Lottery. The Lottery is to provide an instant win and a random number selection on-line lottery. The net proceeds, as outlined in Neb. Rev. Stat. § 9-812 (Cum. Supp. 2014), are to be transferred to the Education Innovation Fund, the Nebraska Opportunity Grant Fund, the Nebraska Environmental Trust Fund, the Compulsive Gamblers Assistance Fund, and the Nebraska State Fair Support and Improvement Cash Fund, a fund of the State Fair Board. The financial statements include only the Lottery and are not intended to present the financial position of the Nebraska Department of Revenue (Department) or the results of operations and changes in net positions of the Department as a whole. The Nebraska Department of Revenue is part of the primary government of the State of Nebraska's reporting entity.

The Lottery has also considered all potential component units for which it is financially accountable, and other organizations that are fiscally dependent on the Lottery, or the significance of their relationship with the Lottery is such that exclusion would be misleading or incomplete. GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the Lottery to impose its will on that organization, or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Lottery. The Lottery is also financially accountable if an organization is fiscally dependent on it, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Lottery, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

These financial statements present the Lottery. No component units were identified.

C. Measurement Focus, Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting.

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The Lottery's financial statements were reported using the economic resources measurement focus and the accrual basis of accounting. With the economic resources measurement focus, all assets and all liabilities associated with the operations are included on the Statement of Net Position. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Net Position is segregated into restricted and unrestricted. The Lottery's operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net position.

Revenues generated from the sale of lottery tickets are reported as operating revenues. Transactions that are capital financing, non-capital financing, or investing related are reported as non-operating revenues. All expenses related to operating the Lottery are reported as operating expenses. All other expenses are reported as non-operating expenses.

Instant ticket revenue is recognized when tickets are sold to the retailer, and on-line revenue is recognized after the drawing is completed for the respective wagers. A 5.5% - 6.0% retailer commission and a prize expense are recognized at the same time. Revenues from the sale of on-line tickets for future drawings and the related agent commission and prize expense are deferred until the drawings are held.

Prize expense is recognized in the same period ticket revenue is recognized based on the predetermined prize structure for each game. Because the instant prize-winning tickets are randomly distributed throughout the tickets and because some winning tickets will be lost, destroyed, or unredeemed for other reasons, there will be differences between amounts accrued and the amounts actually paid. These differences, denoted as unclaimed prizes, are recognized as a reduction of prize expense 181 days after the close of each instant game and 181 days after each draw for on-line games as prizes unclaimed for 180 days expire. Total unclaimed prizes for the fiscal year ended June 30, 2015, were \$2,043,530.

The activities of the Lottery are accounted for as an enterprise fund. Enterprise funds are used to account for governmental operations that are financed and operated in a manner similar to private business enterprises and where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net position is appropriate.

D. Cash and Cash Equivalents

In addition to bank accounts and petty cash, this classification includes all short-term investments, such as certificates of deposit, repurchase agreements, and U.S. treasury bills. These short-term investments may have original maturities (remaining time to maturity at acquisition) greater than three months; however, cash is available and is considered cash and cash equivalents for reporting purposes. These investments are stated at cost, which at June 30, 2015, approximates market. Banks pledge collateral, as required by law, to guarantee State funds held in time and demand deposits.

Cash and cash equivalents are under the control of the State Treasurer or other administrative bodies, as determined by law. All cash deposited with the State Treasurer is initially maintained in a pooled cash account. On a daily basis, the State Treasurer invests cash not needed for current operations with the State's Investment Council, which maintains an operating investment pool for such investments. Interest earned on these investments is allocated to funds based on their percentage of the investment pool.

E. Budgetary Process

The State's biennial budget cycle ends on June 30 of the odd-numbered years. By September 15, prior to a biennium, the Lottery and all other State agencies must submit their budget requests for the biennium beginning the following July 1. The requests are submitted on forms that show estimated funding requirements by programs, sub-programs, and activities. The Executive Branch reviews the requests, establishes priorities, and balances the budget within the estimated resources available during the upcoming biennium.

The Governor's budget bill is submitted to the Legislature in January. The Legislature considers revisions to the bill and presents the appropriations bill to the Governor for signature. The Governor may: a) approve the appropriations bill in its entirety; b) veto the bill; or c) line item veto certain sections of the bill. Any vetoed bill or line item can be overridden by a three-fifths vote of the Legislature.

The approved appropriations will generally set spending limits for a particular program within the agency. Within the agency or program, the Legislature may provide funding from one to five budgetary fund types. Thus, the control is by fund type, within a program, within an agency. Appropriations are usually made for each year of the biennium, with unexpended balances being reappropriated at the end of the first year of the biennium. For most appropriations, balances lapse at the end of the biennium.

All State budgetary expenditures for the enterprise fund type are made pursuant to the appropriations, which may be amended by the Legislature, upon approval by the Governor. State agencies may reallocate the appropriations between major objects of expenditure accounts, except that the Legislature's approval is required to exceed the personal service limitations contained in the appropriations bill. Increases in total appropriations must also be approved by the Legislature as a deficit appropriations bill. Revenues are not budgeted.

F. Receivables

Receivables are reported net of estimated allowances for uncollectible amounts, which is estimated based upon past collection experience and current economic conditions.

G. Capital Assets

Capital assets include equipment that is valued at cost when historical records are available and at estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

Generally, equipment that has a cost in excess of \$1,500 at the date of acquisition and has an expected useful life of more than one year is capitalized.

Equipment is depreciated using the straight line method over the estimated useful lives of three to seven years.

H. Compensated Absences

All permanent employees working for the Lottery earn sick and annual leave and are allowed to accumulate compensatory leave rather than being paid overtime. Temporary and intermittent employees are not eligible for paid leave. The liability has been calculated using the vesting method, in which leave amounts, for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination, are included.

Lottery employees accrue vested annual leave at a variable rate based on years of service. Generally, accrued annual leave cannot exceed 35 days at the end of a calendar year. Employees accrue sick leave at a variable rate based on years of service.

In general, accrued sick leave cannot exceed 180 days. There is no maximum limit on the accumulation of sick leave days for employees under certain labor contracts. Sick leave is not vested except upon death or upon reaching the retirement eligibility age of 55, or at a younger age if the employee meets all criteria necessary to retire under the primary retirement plan covering his/her State employment, at which time the State is liable for 25 percent of the employee's accumulated sick leave. Employees under certain labor contracts can only be paid a maximum of 60 days.

The Lottery's financial statements recognize the expense and accrued liability when vacation and compensatory leave is earned or when sick leave is expected to be paid as termination payments.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the end of the reporting period and revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. CONTINGENCIES AND COMMITMENTS

Risk Management. The Lottery is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors or omissions, injuries to employees, and natural disasters. The Lottery, as part of the primary government for the State, participates in the State's risk management program. The Risk Management Division is responsible for administering the State's insurance Program. The State is self-insured for any loss and currently purchases excess insurance for property, automobile, crime, and terrorism claims.

- A. Motor vehicle liability is insured for the first \$5,000,000 of exposure per accident with a self-insured retention of \$300,000 per accident. Insurance is also purchased, with various limits and deductibles, for physical damage and uninsured and underinsured motorists. State agencies have the option to purchase coverage for physical damage to vehicles.
- B. Crime coverage has a limit of \$31,000,000 for each loss and a \$25,000 self-insured retention per incident, subject to specific conditions, limits, and exclusions.
- C. Real and personal property is covered on a blanket basis for losses up to \$251,000,000, with a self-insured retention of \$200,000 per loss occurrence. Newly acquired properties are covered up to \$10,000,000 for 120 days and, after 120 days, if the property has not been reported, the limit decreases to \$5,000,000. The perils of flood, earthquake, and acts of terrorism have various coverage, sub-limits, and self insurance. State agencies have the option to purchase building contents and inland marine coverage.

Details of the various insurance coverage options are available from DAS – Risk Management Division.

No settlements exceeded commercial insurance coverage in any of the past three fiscal years. Health care insurance is funded in the Insurance Trust Funds through a combination of employee and State contributions. Workers' compensation is funded by the Workers' Compensation Revolving Fund through assessments on each agency based on total agency payroll and past experience. Tort claims, theft of, damage to, or destruction of assets, errors or omissions, and natural disasters would be funded through the State General Fund or by individual agency assessments as directed by the Legislature, unless covered by purchased insurance. No amounts for estimated claims have been reported in the Lottery's financial statements.

Litigation. The Lottery is not involved in any pending litigation and has no notice of any contemplated litigation. To the extent any contemplated litigation exists, the potential amount of liability cannot be determined at this time. However, it is the Lottery's opinion that final settlement of those matters should not have an adverse effect on the Lottery's ability to administer current programs. Any judgment against the Lottery would have to be processed through the State Claims Board and be approved by the Legislature.

3. STATE EMPLOYEES RETIREMENT PLAN (PLAN)

The single-employer plan became effective by statute on January 1, 1964. The plan consists of a defined contribution option and a cash balance benefit. The cash balance benefit is a type of defined benefit plan. Each member employed and participating in the retirement system prior to January 1, 2003, elected either to continue participation in the defined contribution option or to begin participation in the cash balance benefit. The defined contribution option is closed to new entrants. All new members of the Plan on and after January 1, 2003, become members of the cash balance benefit. The benefits and funding policy of the Plan is established and can only be amended by the Nebraska Legislature.

All permanent full-time employees are required to begin participation in the retirement system upon employment. All permanent part-time employees who have attained the age of 18 may exercise the option to begin participation in the retirement system.

Contribution. Per statute, each member contributes 4.8% of his or her monthly compensation. The Lottery matches the member’s contribution at a rate of 156%. The employee’s and employer’s contributions are kept in separate accounts.

The employee’s account is fully vested. The employer’s account is fully vested after a total of three years of participation in the system, including credit for participation in another Nebraska governmental plan prior to actual contribution to the Plan.

Defined Contribution Option. Upon attainment of age 55, regardless of service, the retirement allowance shall be equal to the sum of the employee and employer account. Members have several forms of payment available, including withdrawals, deferrals, annuities, or a combination of these.

Cash Balance Benefit. Upon attainment of age 55, regardless of service, the retirement allowance shall be equal to the accumulated employee and employer cash balance accounts, including interest credits, annuitized for payment in the normal form. The normal form of payment is single-life annuity with five-year certain, payable monthly. Members will have the option to convert their member cash balance account to a monthly annuity with built in cost-of-living adjustments of 2.5% annually. Also available are additional forms of payment allowed under the Plan, which are actuarially equivalent to the normal form, including the option of lump-sum or partial lump-sum.

For the fiscal year ended June 30, 2015, employees contributed \$51,667, and the Lottery contributed \$80,600. A separate plan report is issued and can be obtained from the Nebraska Public Employees Retirement System. This report contains full pension-related disclosures.

The State of Nebraska Comprehensive Annual Financial Report (CAFR) also includes pension-related disclosures as required by GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27. The CAFR report is available from the Nebraska Department of Administrative Services – Accounting Division or on the Nebraska Auditor of Public Accounts website at <http://www.auditors.nebraska.gov>.

4. RECEIVABLES

Retailers comprised principally of grocery stores, convenience stores, and off-sale liquor stores serve as the primary distribution channel for lottery sales to the general public. No one retailer accounts for a significant amount of the Lottery’s sales or accounts receivable. Retailers must pay for instant lottery tickets 45 days after activation or when the pack is 70% validated, whichever comes first. Retailers pay for on-line tickets each Wednesday for balances due through the previous Saturday. The retailers’ accounts receivable is net of allowance for uncollectible in the amount of \$45,838.

Accounts Receivable:	
Retailers (net)	\$6,124,195
Other	15,259
Total	<u>\$6,139,454</u>

5. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2015, was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Capital Assets:				
Furniture, Fixtures, and Equipment	\$ 229,264	\$ 30,734	\$ 9,211	\$ 250,787
Less: Accumulated Depreciation	194,024	16,073	9,211	200,886
Total Capital Assets, Net	<u>\$ 35,240</u>	<u>\$ 14,661</u>	<u>\$ -</u>	<u>\$ 49,901</u>

6. ON-LINE GAMES

During the fiscal year ended June 30, 2015, the Lottery offered a variety of on-line games, as described in the following table.

<u>Game Name</u>	<u>Operated by</u>	<u>Nebraska's Share of Prize Reserves</u>
Powerball®	MUSL	\$1,771,051
Nebraska Pick 5®	Nebraska Lottery	n/a
Nebraska Pick 3®	Nebraska Lottery	n/a
MyDaY®	Nebraska Lottery	n/a
Mega Millions®	MUSL	514,913
2by2®	MUSL	127,682
		<u>\$2,413,646</u>

The Lottery is a member of the Multi-State Lottery Association (MUSL), which operates games on behalf of participating state lotteries. Each MUSL member sells on-line game tickets through its agents and makes weekly payments to MUSL in an amount equal to each game's prize structure, less amounts retained for prizes paid directly to the winners by each member lottery. MUSL maintains prize reserve funds on each game to serve as a contingency reserve to protect from unforeseen prize liabilities. The money in these reserve funds is to be used at the discretion of the MUSL Board of Directors. The prize reserve funds are refundable to MUSL members if MUSL disbands or if a member leaves MUSL. Members leaving MUSL must wait one year before receiving their remaining share of the prize reserve funds.

In addition, the Lottery has \$422,939 held by MUSL, reported on the Statement of Net Position as Reserves on Deposit (Current), which can be used to pay the Lottery's portion of MUSL's operating budget, any MUSL legal expenses, and other expenses incurred by MUSL. These funds are not tied directly to any MUSL game.

The Powerball® and Mega Millions® grand prizes can be paid either as annual installments or a lump sum cash payment, depending on the selection of the winner when claiming the prize. If the winner selects annual installments, MUSL purchases bonds which are held in trust to fund the future installments. Maturities are staggered in order to provide adequate cash flow for each installment. MUSL is responsible for paying amounts owed to the grand prize winners. The assets and related liabilities are reflected in MUSL's financial statements and, therefore, are not reflected in the Lottery's financial statements.

7. NON-CURRENT LIABILITIES

Changes in non-current liabilities for the year ended June 30, 2015, are as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>	<u>Amounts Due Within One Year</u>
Compensated Absences	\$ 258,037	\$ 1,330	\$ -	\$ 259,367	\$ 23,343

8. LEASE COMMITMENTS

The minimum annual lease payments for operating leases as of June 30, 2015, are as follows:

<u>Year</u>	<u>Amount</u>
2016	65,066
2017	66,289
Total	<u>\$ 131,355</u>

Total operating lease payments for the year ended June 30, 2015, were \$63,881.

9. SIGNIFICANT COMPLIANCE REQUIREMENTS

The Nebraska Constitution establishes the basic requirements for the transfer of lottery ticket sales to certain beneficiary funds. The portion designated for the education beneficiary can be amended by the Legislature. Neb. Rev. Stat. § 9-812 (Cum. Supp. 2014) identifies the specific requirements, as follows: A portion of the dollar amount of the lottery tickets, which have been sold on an annualized basis, is to be transferred to the beneficiary funds. The dollar amount transferred must equal the greater of (a) the dollar amount transferred to the funds in fiscal year 2002-2003 or (b) any amount that constitutes at least twenty-two percent and no more than twenty-five percent of the dollar amount of the lottery tickets sold on an annualized basis. To the extent that funds are available, the Tax Commissioner and Lottery Director may authorize a transfer exceeding twenty-five percent. Section 9-812 further requires the following: Of the money remaining after the payment of prizes and operating expenses, the first five hundred thousand dollars is to be transferred to the Compulsive Gamblers Assistance Fund. Of the money remaining after the payment of prizes, operating expenses, and transfer to the Compulsive Gamblers Assistance Fund, nineteen and three-fourths percent is to be transferred to the Education Innovation Fund, twenty-four and three-fourths percent is to be transferred to the Nebraska Opportunity Grant Fund, forty-four and one-half percent is to be transferred to the Nebraska Environmental Trust Fund, ten percent is to be transferred to the Nebraska State Fair Support and Improvement Cash Fund, and one percent is to be transferred to the Compulsive Gamblers Assistance Fund.

As required under the Lottery's enabling legislation, transfers of \$37,106,983 were made to other funds during the fiscal year.

The Lottery develops game structures to comply with the minimum prize provision of its enabling legislation, which requires a minimum of forty percent to be paid in prizes.

The Lottery compares the social security number of each winner who has a per-wager prize in excess of \$500 against a list of social security numbers having an outstanding State tax liability or delinquent child support payments. Any delinquent payments are withheld from winnings and forwarded to the appropriate State agency. During the fiscal year, the Lottery collected \$19,456 in delinquent State taxes and \$31,496 in delinquent child support payments.

Operating Transfers In/Out will not balance and Due To/From Other Funds will not balance, within the Lottery's financial statements, as the Lottery represents only part of the State's primary government.

10. NET POSITION

The Lottery's unrestricted net position represents funds not legally restricted for any specific purpose; however, the funds may be used only to fund additional prize pay-outs, transfers to the beneficiary funds, or additional operating expenses of the Lottery. It is management's intention to use the unrestricted net position to fund additional prize pay-outs, retailer incentives, and other game enhancements.
